Selling Points

*Eve Shutter Switch
Smart Shutter Controller*

- Control your shutter with the app or Siri and enjoy the convenience of smart shading.
- Effortlessly save schedules on Eve Shutter Switch that automatically open and close your shutter according to your daily routine – independently of iPhone or home network.
- Ensure an optimal indoor climate with the Adaptive Shading function by automatically darkening rooms during the day according to the position of the sun – the Eve app automatically takes care of the location – and time-dependent programming for you.
- Use scenes to control all shutters simultaneously and other Apple HomeKit-enabled devices at the same time.
- With HomePod mini, HomePod, or Apple TV as a home hub, you can control the shutters both from home or on the go.
- Eve Shutter Switch automatically integrates into your Thread network and improves the stability and range of your smart home as a Thread router node.
- Apple HomeKit-enabled for outstanding ease of use and advanced security.
- 100% Privacy: No Eve cloud, no registration, no tracking. Processes and communication stay local for maximum security – with no reliance on a bridge or cloud service.

Target Group

- Smart-home buyers
- Builders
- Technology enthusiasts
- iOS users (Individuals & families)
